PROFESSIONAL SUMMARY

Full-Stack Web Developer with hands-on expertise in frontend and backend development using ReactJS, Spring Boot, Hibernate, JPA, and PostgreSQL. Demonstrated ability to design, build, and deploy end-to-end web applications with RESTful APIs, responsive UIs, and scalable architecture. Experienced in CI/CD workflows, cloud deployment (Vercel, Render), and Agile collaboration. Adept at problem-solving, debugging, and writing clean, maintainable code.

TECHNICAL SKILLS

Languages: Java (Core & Advanced), JavaScript (ES6+), HTML5, CSS3, SQL

Frameworks & Libraries: ReactJS, Spring Boot (advanced), Spring MVC, Spring Security, Hibernate, JPA, REST API, Bootstrap, Tailwind CSS, Servlets(basics).

Databases: PostgreSQL, MySQL, NoSQL (basic)

Tools & Platforms: Git, GitHub, VS Code, Eclipse, Postman, Vercel, Render, Maven

Concepts: RESTful API Design, MVC Architecture, CI/CD, Agile/Scrum, OOP, Collections Framework

Currently Learning: Microservices, JWT Authentication.

EXPERIENCE

Code Clause – Web Development Internship (Remote) Oct 2024 – Nov 2024

- Developed a fully responsive blog website frontend using React, JavaScript, and Tailwind CSS.
- Built an interactive memory game with real-time score tracking, timers, and state management.
- Completed a structured, hands-on internship focused on front-end web development best practices.

PROJECTS

Courier & Logistics Tracking System | Java, Spring Boot, Spring Security, PostgreSQL Mar 2026 – May 2026

- Built a full-stack REST API using Spring Boot for end-to-end shipment tracking across Customer, Warehouse, Delivery Agent, Package, Payment, and Tracking History entities.
- Implemented Spring Security with Role-Based Access Control (RBAC) to secure API endpoints by user roles: Admin, Customer, and Delivery Agent.
- Designed a relational data model using JPA/Hibernate, managing one-to-many and many-to-one relationships across 6+ entities with enum-based status tracking.
- Leveraged Java Collections Framework for in-memory data filtering and aggregation prior to database persistence.
- Tracked full shipment lifecycle with status enums and complete Tracking History logging with timestamps.

ABCs of Make-Up | ReactJS, Spring Boot, Spring MVC, PostgreSQL, Vercel, Render May 2025 – Jun 2025

- Built a responsive full-stack beauty tutorial website using ReactJS with client-side routing and state management.
- Developed RESTful APIs with Spring Boot and Spring MVC; integrated PostgreSQL for structured data storage.
- Deployed frontend via Vercel and backend via Render using CI/CD workflows for automated builds.
- Integrated a contact form with backend service to persist user inquiries and support follow-up communication.

EDUCATION

Bachelor of Technology in Computer Science – Chandigarh University, Punjab Jun 2024

CGPA: 7.8 / 10

Diploma in Programming – NICT (North Eastern Institute of Computer Technology), Meghalaya Mar 2021

CGPA: 8.4 / 10

ACHIEVEMENTS & CERTIFICATIONS

- Gold Badge in Java Programming – HackerRank | [Certificate](#)
- Java Full Stack Development – Jspiders, Bengaluru
- A Grade in Diploma in Programming – NICT | [Certificate](#)
- Class Representative Appreciation Letter – Chandigarh University | [Certificate](#)
